The global "healthcare asset management market size" is predicted to reach USD 84,483.03 million by 2027, exhibiting a CAGR of 28.9% during the forecast period. The increasing technological advancement has led to high demand for asset management solutions in medical facilities, which, in turn, will accelerate the healthcare asset management market growth. Moreover, the introduction of wireless connectivity in asset management solutions will contribute positively to this growth during the forecast period, mentioned in a report, titled "Healthcare Asset Management Market Size, Share & Industry Analysis, By Product (Radiofrequency Identification (RFID), Real-time Location Systems (RTLS), Others), By Application (Staff Management, Equipment Tracking, Patient Tracking, Supply Chain Management), By End User (Hospitals, Laboratories, Others) and Regional Forecast, 2020-2027" the market size stood at USD 11,002.50 million in 2019.

The report provides market analysis to give a broader overview of the key players in the market. In addition, the report also covers key strategic developments of the market including acquisitions & mergers, new product & service launches, agreements, partnerships, collaborations & joint ventures, research & development, and regional expansion of major participants involved in the market on a global and regional basis.

Key Features of Healthcare Asset Management Market Report:

- Overview, Industry Life Cycle Analysis, Supply Chain Analysis
- Size, Trends, Growth Drivers, Constraints, SWOT Analysis, Forecast Analysis
- Competitive Landscapes: Market Share, Product Portfolio, New Product Launches, etc.
- Market attractiveness and Associated Growth Opportunities
- Strategic Growth Opportunities for the Existing and New Players
- Key Success Factors

Favorable Reimbursement Policies to Propel Market in North America

North America dominated the market in 2019 and is predicted to remain dominant during the forecast period owing to the rising digitalization in healthcare. The favorable reimbursement policies and government initiatives will encourage growth in North America. The increasing private and public funding for the adoption of healthcare asset management solutions will further enable growth in the region. For instance, in June 2019, the Office of the National Coordinator for Health Information Technology (ONC) released the Cooperative Agreement Notice of Funding Opportunity (NOFO). The objective of this program is to enable developments in the technical standards essential to attain interoperability among healthcare IT systems. Asia Pacific is expected to witness high demand during the forecast period owing to the developing healthcare infrastructure. The growing spending for the development of healthcare IT in emerging nations will healthcare asset management market trends

Reasons to Purchase this Report:

- Detailed business profiles including product offerings, recent developments, key financial information, and strategies employed by main market players.
- Analysis of various regions and countries that includes the demand and supply based actions, which consequently have a major influence on the market's expansion.
- Market dynamics and opportunities for growth for players in the near future.
- Competitive landscape describing the market revenue shares of key players.
- Market segmentation analysis that deals with quantitative and qualitative research, discussing the influence of policy-based and economical aspects.
